

# Hello!

Thank you for buying OUTLINED Icon Pack Vol.1.

The following pages will provide information about this icon library.

If you have any questions, suggestions, comments or custom icon requests, please contact us at [contact@lunarground.com](mailto:contact@lunarground.com).

## Description

OUTLINED Vol.1 is an icon pack that features diverse themes such as zombies, emoticons, drawing tools, military weapons, gems, medieval items, buttons and lots of others. This library also includes a variety of miscellaneous icons that can be used in other software applications beyond only games.

## PNG | Files

In this pack you will find 540 icons in transparent PNG format. They are delivered in the following sizes:

- 512x512
- 256x256
- 128x128
- 64x64
- 48x48
- 32x32
- 24x24

\* The free version comes with 150 sample icons for demonstration purposes.

---

## SVG | Files

This library also includes vector files for each icon in SVG format. They are fully editable in Adobe Illustrator or any other program of your choice. For your convenience we included a version of all of the icons without outlines too.

\* The free version comes with 150 SVGs sample for demonstration purposes.

---

## SVG | Customizations

All files are layered. You can remove outlines, change colors, add shadows or create icon combinations. You will be amazed how you can easily customize the icons in any way you want.
